

# Congratulations

2008 Project of the Year

## **Peter Golter East Regional Winner**

**Opera Lofts • Chicago, IL**

The Opera Lofts building served as the set, stage and costume fabrication and storage facility for the Lyric Opera of Chicago for over 80 years. Built between 1912 and 1924, the building was specially designed to accommodate the demands of large-scale opera sets, with oversized ceilings, concrete floors, and huge freight elevators. The building has been restored and converted to multi-family condos. Project was featured in the December edition of *Concrete Contractor*.

**Project description:**

Decorative one-of-kind acid stained and sealed lobby floor.
